LEADING THE LEARNING REVOLUTION IN OUR INDUSTRY

KILN DRYING FUNDAMENTALS – 2024

In-Class Learning

Introduction | 3-day course

DESIGNED FOR

- New dry kiln employees and management (supervisors and QC)
- Good refresher for operators and supervisors who have not had formal training

OBJECTIVES

- Ensure that all kiln personnel are familiar with and can safely operate all components of a drying operation
- Ensure that all kiln personnel have a good understanding of the general construction and functional description of all components in a CDK
- Develop the necessary troubleshooting skills for the safe and efficient operation of a CDK

WHAT YOU'LL LIKE

A very interactive training session that will allow for interaction with your peers and instructor(s)

WHAT YOU'LL LEARN

- General construction and functional description of a CDK
- General construction and functional description of a burner system
- Understanding of the automated control processes that are controlled by the PLC and interfaced with the HMI
- Troubleshooting skills to assist in the safe and efficient operation of your systems

BENEFITS

- Safe and efficient operation
- Reduced downtime
- Improved productivity
- Improved grade outturn

2024 CLASSES

February 27 • April 23 • June 18 • August 20 • October 1 • December 10
